

LABEL

ALUMINUM CASTINGS - SERIES 300 WITHOUT BERYLLIUM. ALLOY: 319, 356, A356

See Material Safety Data Sheet SC-000-052 Revision 9 for additional information.

Manufacturer:

Littlestown Foundry, Inc.
150 Charles Street - PO Box 69
Littlestown, PA 17340 (717)-359-4141

THERE ARE NO CHEMICAL HAZARDS FROM THESE CASTINGS IN SOLID FORM

CAUTION

Grinding, welding or arc gouging these castings creates dust or fumes containing substances listed below with corresponding possible health effects on prolonged or repeated overexposure:

- Aluminum - fibrosis of the lung, shortness of breath, sputum production
- Chromium (hexavalent) - lung cancer
- Nickel - lung or nasal cancer

These castings also contain or may contain copper, iron, magnesium, silicon and zinc. Aluminum chips and grindings will burn. Aluminum dust can explode. Keep away from flames and sparks. Wear eye protection. Wear approved dust and fume respirator if exposures exceed safe limits.
